

WBE Families,

As you know, we could experience some winter weather overnight. We wanted to make sure everyone was aware of our current inclement weather schedules and procedures. If you are new to Tennessee and Sumner County, our county is very large and there may not be much snow in Hendersonville but there may be several inches in the northern part of the county.

**Delayed Start**-If we were to go to school 2 hours late, our doors would open at 9:50 and breakfast would **not** be served.

Fun company and the preschool will communicate their policies with their families as they may be different from the school hours.

**Early Dismissal**- Parents, please make sure that you are weather aware on days where it may snow or storm. In this situation, you will be notified by the district notification system which is tied to this system as well as the Sumner County Facebook page and local news stations. Teachers will send student's home their scheduled way unless you tell them differently.
